NICOLL SURFACE DRAINAGE

PRODUCT NAME: Nicoll Surface Drainage.

PARTS USED: Kenadrain HD 200mm wide Class E.

WHAT IS IT? A heavy duty surface drainage system.

WHERE IS IT USED? Commonly in public and commercial applications and where extra heavy duty performance is required.

With a large concrete parking and loading area next to unsealed flat land, QLD based Norship Marine required a surface drainage solution that would be able to cope with the famous downpours that the area receives.

Along with the drainage requirement, the system used would have to be able to cope with a 80 ton lifting capacity sling crane. After careful consideration of the options available, the customer chose to install the Nicoll Kenadrain HD range. Designed to cope with Class E loads, this versatile product was the idea solution for the job and will allow for many years of satisfied customer boat deliveries.
