Waterless design technology, saves water and saves money.

Waterless Urinal

Environmentally smart, hygienic and cost-effective, this easy-installation design saves water and saves money. Around the world, this intelligent technology is already widely used in public and commercial applications ranging from office buildings to sports stadiums. Innovative and stylish, each of these vitreous china and fibreglass models work to save approximately 182,000 litres of water per year. The cartridge design also helps to prevent pollutants being discharged into our waterways.

Cut away view of SealTrap® cartridge

Floating layer of AirSeal® liquid seals urine from atmosphere eliminating smells. Waste discharged into drainage system. Unique baffle ensures AirSeal® lasts the life of the SealTrap® cartridge – up to 15 000 uses. No top ups or waste.

Diagrams illustrate how liquid sealant floats on water and how urine passes through it becoming securely isolated from the restroom, while proceeding to the drain. Our unique cartridge design requires no addition of sealant between changes.

The benefits:

- Available in vitreous china and fibreglass (Granite only)
- Low maintenance
- Waterless
- Odourless
- Hygienic
- Economical
- No mechanical parts
- Gel coating resists urine accumulation and bacteria residue
- Limits harmful pathogens in the air

Styles available:

- Flax (Vitreous China)
- Boronia (Vitreous China)
- Geranium (Vitreous China) smaller in size to suit schools, childcare centres
- Boronia (Fibreglass model Granite only)

The cartridge:

- Each urinal consists of two main components - SealTrap® and AirSeal® SealTrap is the specially constructed ABS polypropylene cartridge and AirSeal is the alcohol-based biodegradable sealant liquid with a citrus fragrance. Urine flows through into the SealTrap where it is immersed through a floating layer of AirSeal sealant liquid. This sealant floats and seals the urine from the atmosphere. The efficient SealTrap design then allows the immersed urine to be discharged into the sewage system.
- Cartridge will last approx 10,000 - 15,000 uses
- Replacement cartridges available from Aquadux.
